

GANESH PATIL

iOS Developer

Indore, M.P, India | github.com/GaneshPatil22 | [Leetcode](#) | ganeshpatil0422@gmail.com | +91-8819089163

I have 7+ years of experience working closely with designers to deliver work class user experience. Well-versed with **Swift**, **SwiftUI**, **Objective-C** and many Apple frameworks.

Work Experience:

MTailor:

Sr. iOS Developer, **MTailor** | Sept, 2023 - Current (**Swift**)

- As an independent iOS Developer, my responsibilities include:
 - Adding **new features** and **enhancing existing ones** for client projects.
 - Fixing bugs promptly to ensure product stability.
 - Implementing user activity tracking features.
 - Publishing app builds to the App Store.

Deutsche Telekom Digital Labs Private Limited:

Sr. iOS Developer, **Young App** | Feb, 2023 - Sept, 2023 (**Flutter**)

- Creating injectable modules for **Config and MQTT layer**.
- Configure Linter rules and Linter for good coding practices in new project.

Sr. iOS Developer, **One App** Feb, 2023 - Sept, 2023 (**Swift**)

- Closely work with the German team and look into **Class 1 bugs and Incidents**.

Zebra Technologies:

Sr. iOS Developer, Reflexis | Dec, 2021 - Feb, 2023

- Migrated Store Manager App from **objective-C to Swift**.
- Added Accessibility feature throughout the various apps.
- Contributed to Reflexis' internal iOS UI Library written in swift.
- Introduced **TDD** approach in new projects.
- Introduced **SwiftLint and rules for good coding practices**.
- Build new app called Pinboard in **SwiftUI**.

Reliance Jio:

iOS Developer, JioMart | MyJio | April, 2021 - Dec, 2021

- Added **Protocol Oriented approaches** to various UI modules.
- Added **Mock URL session layer for API unit testing**.
- Migrated web view UI to native UI for Profile, Order and Cartmodule in the JioMart App.
- Migrated search web view UI to native UI in MyJio App.
- Added a **video card on the JioMart home** page for product reviews and ads using **AVPlayer**.
- Implemented **background download** and **offline playback** for seamless video viewing.

Tudip Technologies:

iOS Developer, Eventur | Gamebook | Life Organiser | Nov, 2017 - April, 2021

- Designed and **Built full Eventure app** from scratch.
- Distributed 30+ Apps on the App store for various clients of Eventure App.
- Added Fastlane script to automate this process.
- Added **SSL pinning for API calls**.

Education:

RGPV

B.E. in Computer Science

Skills:

Languages

Swift, SwiftUI, Objective-C, Flutter, Android(JAVA)

Frameworks

UIKit, Cocoa Touch, Cocoa Pods, GDC, Core Data, Core Animation, AVPlayer

Alamofire, Core Location, Core Bluetooth, Firebase, SwiftLint, Keychain, OperationQueue, AVFoundation, SQLite.

Architecture

VIP, MVP, MVVM, MVC

Design Patterns

Builder Pattern, Factory Pattern, State Pattern, Observable Pattern, SOLID principles, TDD

Other

Xcode, Git, Jira, Agile

Interest

Puzzle Solving, Competitive Programming, Anime & Gaming
